PROJECTS

- TypingTest** **Social** **App**
URL: <https://github.com/pradipghetiya>
The **Typing Speed Test** application is a web-based tool designed to measure how fast and accurately users can type a given passage of text. It allows users to type a random or predefined text and calculates their typing speed in words per minute (WPM) and accuracy based on the correct characters typed within a given time limit.
- ECommerce** **App**
URL: <https://github.com/pradipghetiya>
The **E-Commerce Watch Store** is a web-based application where users can browse, select, and purchase watches from various categories.
- MilkTracker** **Cards**
URL: <https://github.com/pradipghetiya>
The **Milk Tracker** is a web-based application designed for individuals or businesses (e.g., farms, dairy shops, or supermarkets) to track the quantity and sale of milk.

CERTIFICATIONS

- Git and GitHub For Beginners**
